

Name: Dixon Resources Unlimited
Title: Contractor
For: Engineer/Contractor

Bio: Dixon Resources Unlimited (DIXON) was founded with the direct goal of supporting municipal parking and transportation programs. We like to consider ourselves to be the "Parking Coach" because we offer best in class parking and transportation solutions across a broad spectrum of services. DIXON has directly supported municipalities throughout the United States - developing extensive knowledge and hands-on experience with the solicitation, development, deployment, operation, and ongoing maintenance of solutions ranging from municipal parking programs to automated traffic enforcement systems. We have been responsible for establishing policies, defining objectives and delivering on initiatives for municipalities of all sizes, working at all levels within the administration, operation, enforcement and adjudication processes.

Why: Dixon Resources Unlimited took on one of the most daunting tasks known within Santa Barbara County, Isla Vista parking issues, head on and with unprecedented clarity, knowledge, and deftness. They later stepped up to clean up and finish the work of another consultant for the Isla Vista Mobility Plan, a grant program from the California Air Resources Board and made more progress in 2 months than was done in over a year. They are extremely reliable, responsive, and produced work of the highest quality.

Nominated by: Jonathan Abboud
Isla Vista Community Services District
General Manager
